

Serial No. 09/607,827
Art Unit 2877

AMENDMENTS TO THE SPECIFICATION:

Please add the following paragraph to the specification at page 26, line 8:

Control means (60) is in electrical communication with at least one temperature measuring means (67). Temperature measuring means (67) is arranged as close as possible to the light source (3, 133) and/or the photo sensor (13). Control means (60) determines the characteristic temperature of each respective light source (3, 133) or respective photo sensor (13) for the purpose of enabling a temperature-corrected determination of at least one parameter.
